2022-23 School Overview

Junction City School a small, one-school district serving about 70 kids in grades TK-8. We are located in the small mountain town of Junction City in Trinity County, California. We are nestled at the base of the beautiful Trinity Alps Wilderness, along ten acres of the Trinity River.

All Junction City School students participate in a curriculum that is based on Common Core Standards and is enriched with STEM, Social Emotional Learning (SEL), and Visual and Performing Arts while on campus. Our After School Program offers electives, academic enrichment, and homework assistance. Our intervention program offers support for students that need additional assistance with skills. The mission of Junction City School is to improve the academic and social skills of all students, and to create a school climate conducive to learning by encouraging good citizenship, good attendance, and high academic standards. It is our intent to provide an environment that fosters in children the ability to recognize and accept responsibility to the end that they may be active participants in our global society. Together, these programs and philosophies help to promote a whole school family atmosphere with an emphasis on our students' success and well-being.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

| Authorization/Assignment | School Number | School Percent | District Number | District Percent | State Number | State Percent |

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Junction City School was built in 1990. There are four classrooms, a STEM lab, a very large resource room, office, and a staff room in the main building. Our gym/cafeteria and kitchen are separate from the main building. The after-school building was added in 2009 near the playground. There is more than adequate room in all areas. No asbestos or other hazardous substances were used in the construction of the buildings.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- 4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

| Subject | School 2020-21 | School 2021-22 | District 2020-21 | District 2021-22 | State 2020-21 | State 2021-22 |

| English Language Arts/Literacy (grades 3-8 and 11) | N/A | 71 | N/A | 71 | N/A | 47 |
| Mathematics (grades 3-8 and 11) | N/A | 57 | N/A | 57 | N/A | 33 |

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who met the standard standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents and community members are encouraged to participate at school. There are a variety of activities to get involved with in the classroom, at special events, on fieldtrips, and during our after-school program. Parents are also encouraged to become members of the LCAP Advisory Committee, School Site Council (SSC), the Governing Board, as well as other school committees.

2021-22 Chronic Absenteeism by Student Group

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

| Expulsions | 0.00 | 0.00 | 0.05 |

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Junction City School Comprehensive Safety Plan is available on our website and a paper copy is available upon request. The Safety Plan was approved on 2/10/22. It is reviewed regularly by the Safety Committee, the School Site Council, Junction City School Staff, and the Governing Board. The Safety Plan is revised as necessary. It was approved by the School Site Council on January 9, 2023, and it will be formally reviewed for Board approval in February 2023.

Recent research has indicated that comprehensive safe school planning can be instrumental in producing a safe school environment. The four basic principles:

1. Safe schools are caring schools. Students in safe schools feel respected and know that the people in that learning community care about their individual needs and expect them to succeed. The student's cultural heritage is respected, and there is tolerance for racial, language, physical, and ethnic differences in the school. Similarly, staff members in a safe school perceive that they are safe and that their ideas about school improvement are valued. Safe schools welcome parents and community members who share their ideas, talents, and resources in improving the school environment and make the school a valued part of the community.

2. Safe schools are built through the cooperative efforts of parents, students, teachers, classified staff, law enforcement representatives and community members.

3. Safe schools communicate high standards. Students and staff know that learning and achievement are encouraged and highly valued and that positive social behaviors are expected. They know that the achievement of each individual is valued regardless of innate academic or physical talents. The consequences for violating the rules and standards are equally clear.

4. Safe schools stress prevention, and the staff and students are prepared. Ongoing training opportunities allow students and staff to increase their ability to deal with conflict, anger, and other threats to safety. Safe schools have security checks on a regular basis to identify potential physical hazards or the school's vulnerability to crime and vandalism. They also institute ongoing programs to prevent gang activity; drug, tobacco, and alcohol abuse; and other negative behaviors. Finally, because it is impossible to prevent all problems, safe schools have crisis response plans in place to deal with unforeseen emergencies.

2021-22 Types of Services Funded

Junction City School strives to serve the needs of all students. We offer all students academic support and intervention during our After School Program. All students are also offered social/emotional support by our school counselor, and through our Wellness Liaison and the Social Emotional Learning (SEL) classes that are integrated into all classrooms. Although we are not eligible for Title 1 funding, we ensure that all of our disadvantaged youth are provided with the support that they need to be successful.

Professional Development

The content of professional development is based on school needs and student support. The primary focus of professional development is on implementing a standards-based curriculum, data-driven assessment, social-emotional learning, multi-tiered system of support (MTSS), and school safety. Professional development also includes strengthening subject matter expertise and classroom management as well as implementation of technology into the classroom. New teachers or teachers new to a grade level are carefully selected and supported during their first years of teaching. Professional development is provided for teachers in multi-graded and reduced-sized classes. Most teachers serve on committees within the school, such as the School Site Council, MTSS Team, and Student Study Team. Teachers and administrators are involved in the overall operation of the school. There are opportunities for teachers to work and plan collaboratively and to share information. Teachers and instructional aides are encouraged to take advantage of professional development opportunities in the district, county, regional, and state levels. Opportunities are provided at staff meetings to share what they have learned from their professional development. Staff development related to special needs students reflects the demographics of the school.
